Subject: RE: Provider Staffing and Vacancy Survey

So we all don't do this independently, will you add columns calculating vacancy percentages for each element? FT/PT including the calc for pre-pandemic

Subject: Provider Staffing and Vacancy Survey

Attached is data from the recent provider survey we did to inform rate assumptions. I have attempted to clean up the data a bit. We received responses from providers encompassing roughly 70% of our spend. I am planning to summarize this in a ppt, but thought it might be helpful for you to have individual provider data. We did say in the survey that individual responses would not be used except for follow up, so this is not for general distribution.
